INTERNATIONAL TRAVEL DESTINATION

Chicago's tourism totals have consistently been on the rise in recent years, growth in 2018 was more substantial than normal. A record **57.6 million people visited Chicago in 2018**, nearly a 4.3% increase over 2017's record of 55.2 million. The largest percentage of growth was domestic travel with a 4.4% increase over 2017. International visitor numbers also increased 2.9% over 2017.

The record setting numbers were due, in part, to several initiatives that boosted leisure travel as well as word-of-mouth and high-profile kudos. *Condé Nast Traveler* readers voted Chicago the number 1 big city in the US two years in a row, *Bon Appétit* magazine named Chicago "restaurant city of the year" in 2017, and the *Financial Times* called Chicago "the most architecturally aware city on earth." Part of the boost also came from the city's aggressive pursuit of big-tourist draws including the NFL Draft, the James Beard Foundation Awards and the Laver Cup. The city also bolstered tourism-friendly offerings with attractions like the Riverwalk and, more recently, Art on the Mart. Business travel also contributed to the bump, with an 3.5% in 2018. 59 new major conventions have committed to meet in Chicago in future years.

O'Hare International Airport and Midway International Airport, the only "dual-hub" airport system in North America, handled **105 million passengers in 2018**. Both airports have direct rail access to Downtown Chicago and modernization projects are happening at both O'Hare and Midway. Most notably O'Hare's \$8.5 billion plan to expand over the next decade which includes a new airfield, terminal, gates, and passenger perks. Midway's improvements are budgeted at \$400 million and include restaurants, upgraded passenger screening, and updated parking infrastructure.

O'Hare is the busiest airport in the world for flight operations and is among the few airports worldwide that rank in the top 20 for both passenger volume and cargo tonnage - two leading indicators of an airport's connectivity and economic strength.
