TENANT **OVERVIEW**

O'Reilly Auto Parts is the dominant auto parts retailer in all of their market areas. Founded in 1957 as a single store in Missouri to 5,219 stores in 42 states and more than 67,000 team members. This includes the July 2008 acquisition of CSK Auto Inc., one of the largest specialty retailers of auto parts in the Western U.S. O'Reilly is a proven success. Team members do everything they can do to help O'Reilly to continue to be successful. They approach every job with responsibly and enthusiasm. The company has a dual market strategy, targeting do-it-yourself customers as well as professional installers. O'Reilly believes this gives it a competitive advantage, allowing the company to target a larger base of consumers of automotive aftermarket parts; capitalize on existing retail and distribution infrastructure; operate profitably not only in large metropolitan markets but also in less densely populated areas, which typically attract fewer competitors; and enhance service levels to the DIY market by offering a broad selection of products and extensive product knowledge required by professional installers. O'Reilly seeks to aggressively add new stores to achieve greater penetration in existing markets and to expand into new, continuous ones.
