THIS SMALL MIDWESTERN TOWN IS THE MINI-PORTLAND OF YOUR DREAMS

Dustin Nelson, July 20, 2017 (*Thrillist*)

In early June, when you saw headlines about a music festival with names like Paul Simon, Bon Iver, Chance the Rapper, and Wilco leading the bill, maybe you raised an eyebrow when you realized it was in... where was it?... Wisconsin? Eau Claire, Wisconsin?

Yep, a crowd of 20,000 showed up for Eaux Claires, a two-day fest in the west-Wisconsin woods co-founded by The National's Aaron Dessner and Bon Iver's Justin Vernon. Vernon calls this dot on the map 80 miles east of the Twin Cities

his hometown (so do I, coincidentally), and has helped champion a Midwestern music scene here reminiscent of a younger Austin.

But the city of Eau Claire has street cred that goes beyond Vernon, and music is only a taste of what makes the place great -- and one of the best small towns to visit

In a region flush with natural beauty, Eau Claire is like a homey, beer-battered, cheese-filled Portland -- big enough that it doesn't feel like you're walking into an episode of Cheers, small enough to feel like a breath of fresh air.

Eaux Claires, likewise, follows a festival tradition that includes the older-skewing Rock Fest, Country Jam, and Country Fest.

HOW BON IVER SAVED EAU CLAIRE

David Lepeska, August 25, 2017 (*Bloomberg CityLab*)

Justin Green lived in Austin, Texas, most of his life. He opened a music studio there, got married, and had two kids. But by 2016, the 31-year-old felt it was time to leave behind the heat, crowds, and costs of the state's fast-growing capital.

He thought about Madison, Wisconsin, with its strong music scene. But bands kept telling Green to look further north, to Eau Claire. The town is known to indie music fans as the home of the Eaux Claires Music & Arts Festival, a two-

day event co-founded and curated by singer-songwriter Justin Vernon of the band Bon Iver, who grew up there. So Green and his wife paid a visit.

"We were just like, 'Holy shit! This place is awesome,'" says Green, who moved to Eau Claire and opened his new studio a year ago. "I got that vibe that this was what Austin used to be before it blew up—an actual small-town feel in a fairly large-sized city."

The story of Eau Claire, a Wisconsin town seated at the confluence of the Chippewa and Eau Claire rivers, mirrors that of many industrial towns in the upper Midwest and Rust Belt: Founded in the mid-19th century, lumber drove its early growth. Manufacturing took over in the early 20th century and sparked an extended boom.
