POTENTIAL BONUS DEPRECIATION

7-ELEVEN LAKELAND, FL

|Tax Saving Benefits Through Cost Segregation

A Cost Segregation Study will in many cases provide you with significant benefits by accelerating depreciation deductions in the early years of ownership. The Tax Cut and Jobs Act of 2017 provided for Bonus Depreciation to be applied to any acquired property for assets that had a tax recovery period of 20 years or less. The rate of Bonus Depreciation was at 100% until the end of 2022 and has been reduced to 80% for 2023 and will

continue to reduce by 20% each year. A convenience store that recognizes more than 50% of its gross receipts from petroleum sales is assigned a tax recovery period of 15-years, making it eligible for bonus depreciation treatment. Due to certain state depreciation rules, a Cost Segregation Study should still be considered to identify 5-year property as well. If the convenience store does not meet the revenue test for petroleum sales, the

starting point for the recovery period is 39-years. The Cost Segregation study will identify 5 and 15-year property that will support taking accelerated depreciation deductions, including Bonus Depreciation. It should be noted that any unused Bonus Depreciation deductions can be carried forward to future tax years. The benefits related to either scenario are illustrated below:

Polk County Embraces Red-Hot Industrial Market

JOHN HAUGHEY, JANUARY 11, 2022 (BUSINESS OBSERVER)

Pinpointing 2021 milestones and projecting 2022 highlights should be easy in Polk County, where the population has increased more than 20% since 2010 and its location straddling Interstate 4 between Tampa and Orlando sustains job-generating growth in manufacturing, distribution and logistics.

But distinguishing between drops in a deluge is **easier** said than done. “There’s a lot going on here,” Central Florida Development Council President and CEO Sean Malott says. “That’s the reality across Florida right now. **Florida** is very **attractive** for people and **businesses** but, as you dive into it, a **very large portion of people** coming to Florida are coming to Central Florida, coast-to-coast.”

Lakeland Central Park, a project with an estimated investment of some \$400 million, will offer five million square feet of industrial space within five years, beginning in January with construction of a 700,000-square-foot warehouse.

The Lakeland-Winter Haven Metropolitan Statistical Area, with nearly 750,000 residents, boasted the **nation’s No. 2 MSA growth rate** between 2019 and 2020, tied with Boise, Idaho, at **2.7%**. That trend accelerated in **2021** when, for example, Winter Haven saw **\$1.3 billion** in new development investment. Lakeland, meanwhile, saw more than six million square feet in commercial/industrial space built and occupied, creating **3,500 jobs** and encouraging similar speculative ventures, especially near Lakeland-Linder International Airport. “Developers are **seeing success** in investments in our market,” Lakeland Economic Development Council Vice President for Business Development Ashley Cheek says. “Over the last couple of years, we’ve seen an increase in industrial development and continue to see more **speculative development.**”

Polk County is the Fastest-Growing County in Florida, 7th in the Nation

MAYA LORA, MARCH 26, 2022 (THE LEDGER)

The growth spurring major development across Polk County isn't slowing down anytime soon.

Polk County is the fastest-growing county in Florida and the **seventh fastest-growing** in the **nation**, according to data released Thursday by the **U.S. Census Bureau**.

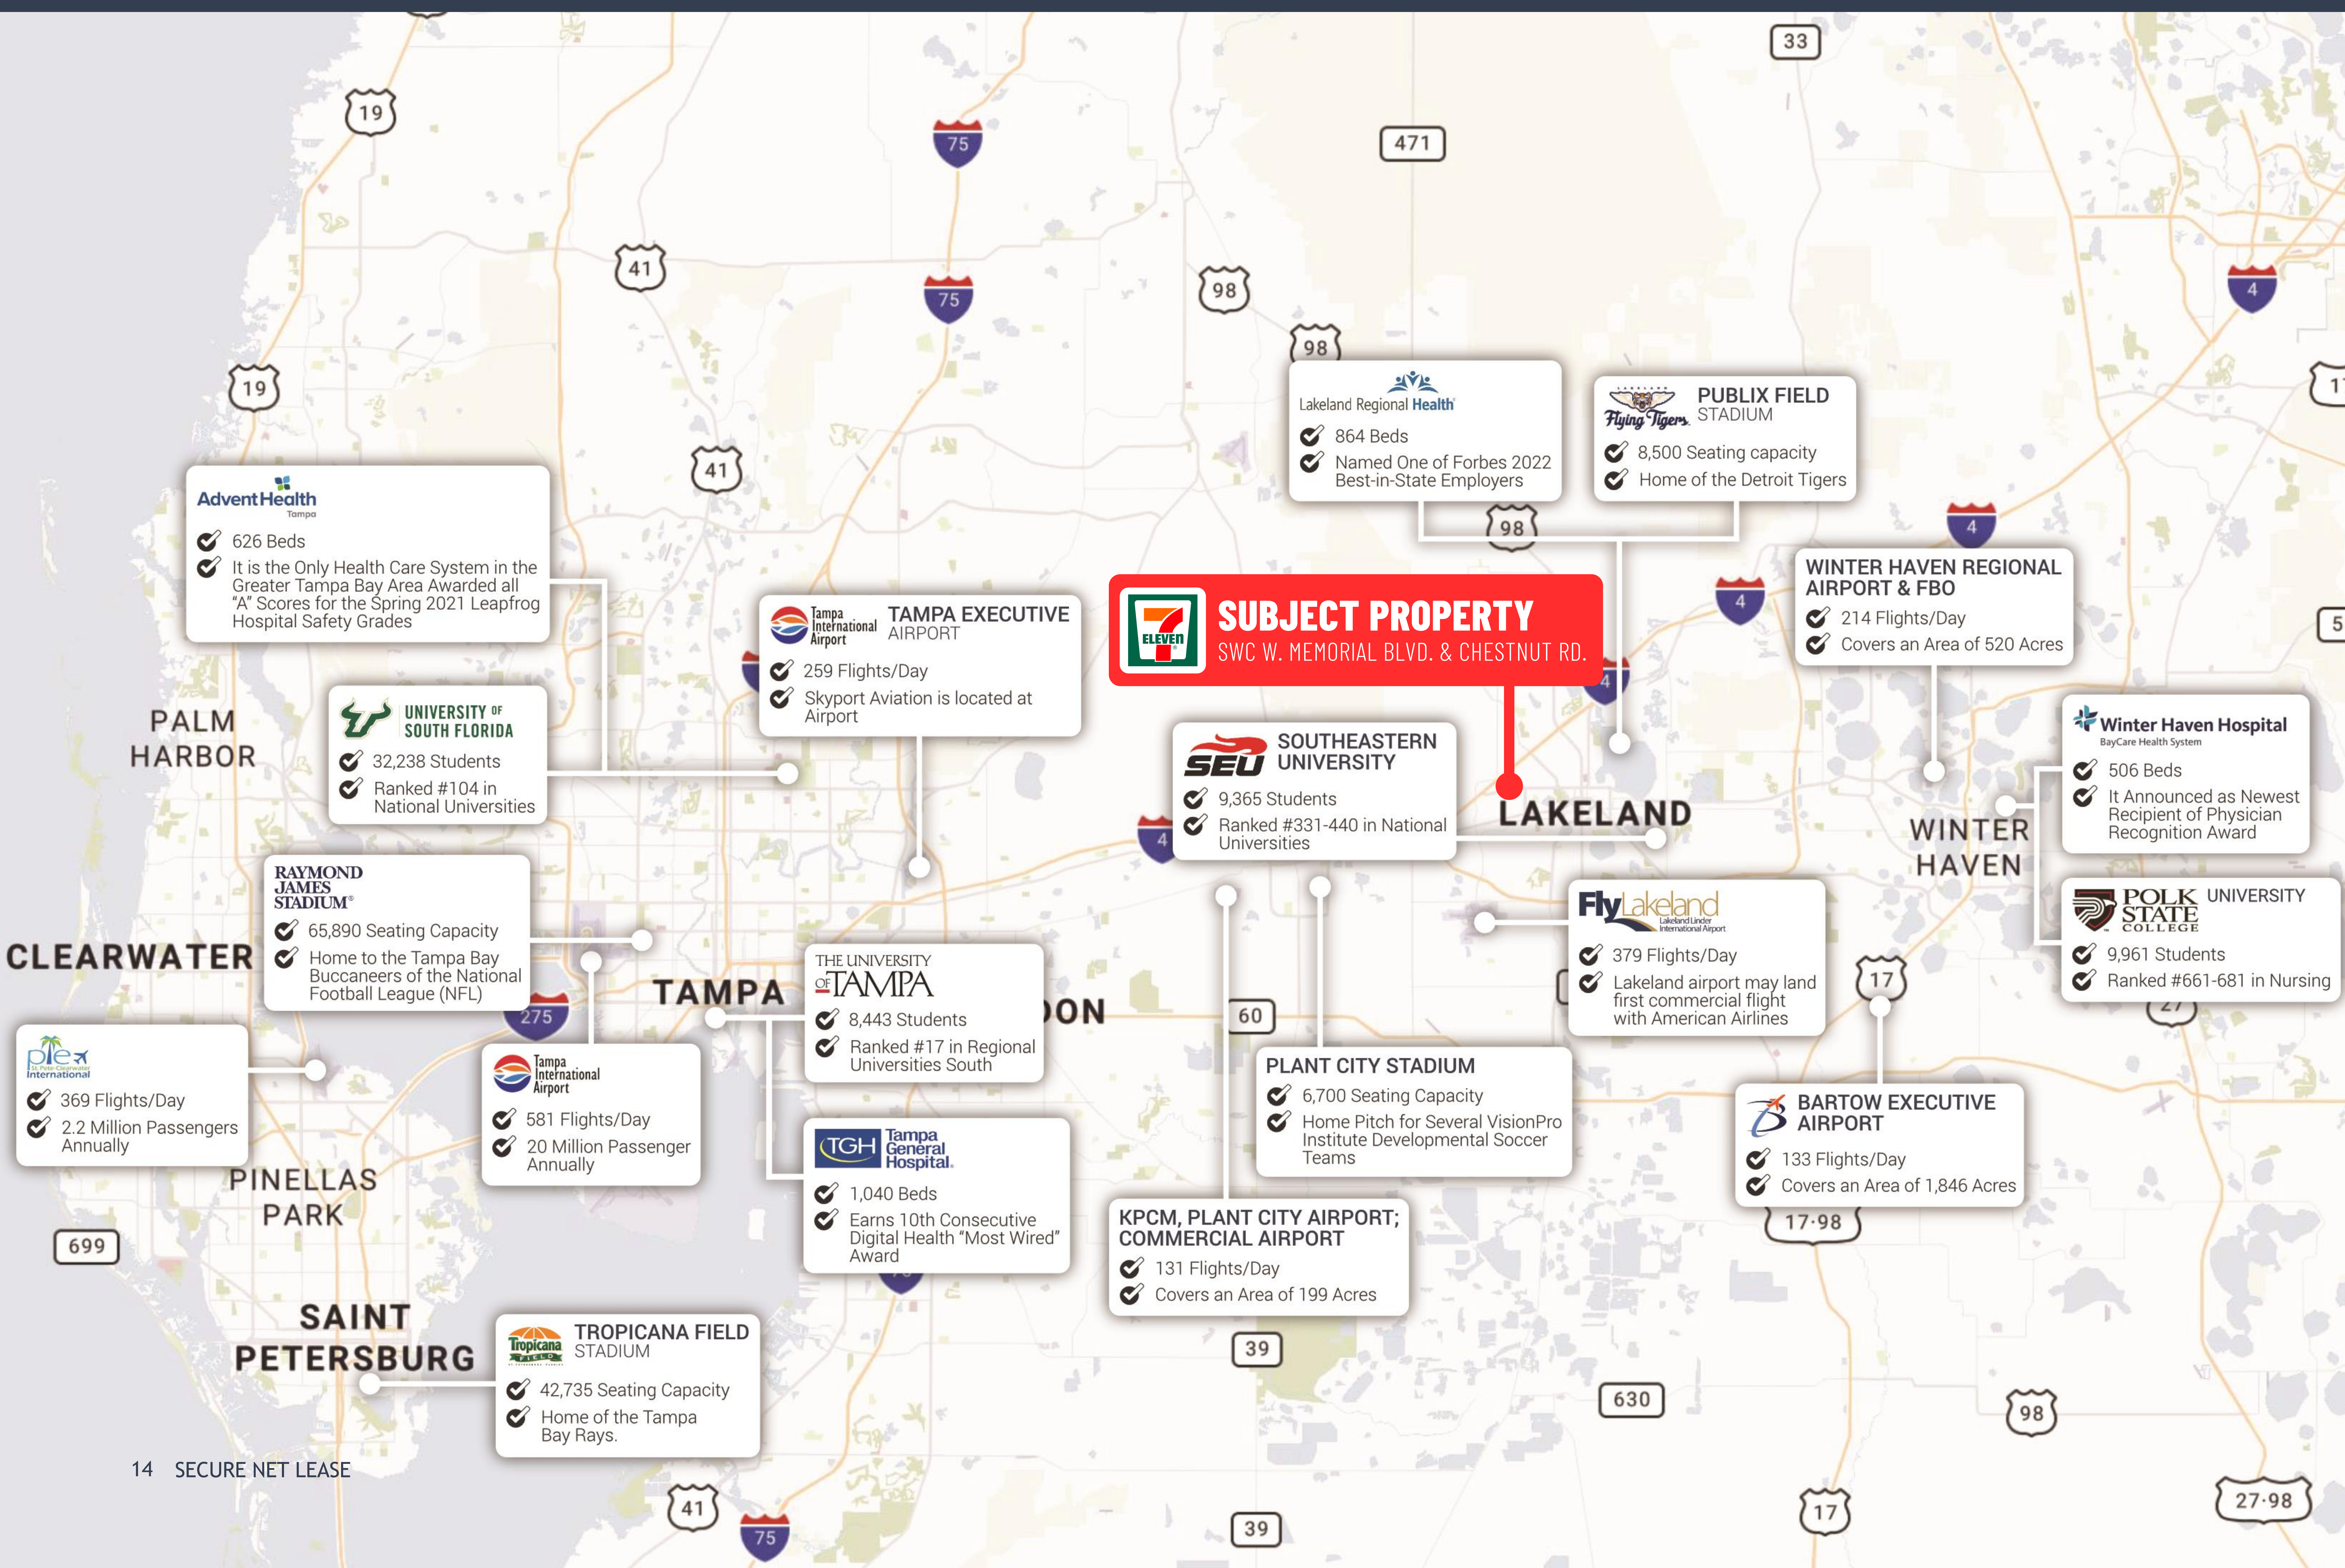

For 2019-2020, the Lakeland-Winter Haven metro area tied for the second-fastest growing metro area in the country.

By that measure, the nation this year would be led by the Myrtle Beach-Conway-North Myrtle Beach metro area, which **grew by 3.7%**. And Lakeland would be tied for second with Boise, Idaho. Between July 1, 2020 and July 1, 2021, Polk County's population grew by **24,287** people – to **753,520**. The only other Florida county to make the nation's top 10 fastest growing counties list was Lee County in Southwest Florida, which grew its population by **23,297 people**. The fastest growing county in the U.S. was Maricopa County in Arizona, which grew by **58,246 people** to balloon its overall population to nearly **4.5 million people**. Half of the top 10 counties were in Texas, which include Collin, Fort Bend, Williamson, Denton and Montgomery counties. Collin and Denton counties include portions of the Dallas-Fort Worth metro area. But that's just by numeric growth. The top 10 metro areas by percentage growth include three Florida metro areas in addition to Lakeland-Winter Haven, which ranked seventh with 3.3% growth over that year. Punta Gorda ranked fourth at **3.7%**, The Villages ranked fifth at 3.6% and Cape Coral-Fort Meyers **ranked ninth** at 3% growth. By percentage, the **fastest growing** metro area in the U.S. was St. George, Utah, which grew by 5.1% to a total of 191,226 people.
