AGENT'S DUTIES

When you contract with a real estate firm to act as your agent in a real estate transaction, the agent must help you obtain the best price and terms possible, whether you are the buyer or seller. The agent also owes you the duty to:

- Safeguard and account for any money handled for you
- Act with reasonable skill, care and diligence
- Be loyal and follow reasonable and lawful instructions
- Disclose to you any information which might influence your decision to buy or sell

Even if the agent does not represent you, the agent must still be fair and honest and disclose to you all "material facts" which the agent knows or reasonably should know. A fact is "material" if it relates to defects or other conditions affecting the property, or if it may influence your decision to buy or sell. This does not require a seller's agent to disclose to the buyer the minimum amount the seller will accept, nor does it require a buyer's agent to disclose to the seller the maximum price the buyer will pay.

AGENTS WORKING WITH SELLERS

A seller can enter into a "listing agreement" with a real estate firm authorizing the firm and its agent(s) to represent the seller in finding a buyer for his property. The listing agreement should state what the seller will pay the firm no matter who finds the buyer.

The listing firm may belong to a listing service to expose the seller's property to other agents who are members of the service. Some of those agents may be working with buyers as buyers' agents; others will be working with buyers but still representing the sellers' interests as an agent or "subagent". When the buyer's agents and seller's subagents desire to share in the commission the seller pays to the listing firm, the listing agent may share the commission with the seller's permission.

AGENTS WORKING WITH BUYERS

A buyer may contract with an agent or firm to represent him (as a buyer's agent), or may work with an agent or firm that represents the seller (as a seller's agent or subagent). All parties in the transaction should find out at the beginning who the agent working with the buyer represents.

If a buyer wants a buyer's agent to represent him in purchasing a property, the buyer should enter into a "buyer agency agreement" with the agent. The buyer agency agreement should state how the buyer's agent will be paid. Unless some other arrangement is made which is satisfactory to the parties, the buyer's agent will be paid by the buyer. Many buyer agency agreements will also obligate the buyer to pay the buyer's agent no matter who finds the property that the buyer purchases.

A buyer may decide to work with a firm that is acting as agent for the seller (a seller's agent or subagent). If a buyer does not enter into a buyer agency agreement with the firm that shows him properties, that firm and its agents will show the buyer properties as an agent or subagent working on the seller's behalf. Such a firm represents the seller (not the buyer) and must disclose that fact to the buyer.

The terms and conditions stated in this Confidentiality & Disclaimer section apply and relate to all of the sections of this package as if stated independently therein. Prospective purchasers of the subject property are hereby notified that Berkeley Capital Advisors, and its agents, are acting in the capacity of a "Seller's Agent" during the course of this offering, and as such are solely representing the interests of the Seller
